

ABC Company Health Screening Survey

ABC Company is considering offering comprehensive health screenings to our employees and possibly spouses of employees. The screenings would involve an actual blood draw (as opposed to a finger prick) and completion of a health risk assessment questionnaire. The screening would require a 10-12 hour fast prior to the testing. Each participant would schedule an appointment with the phlebotomist for the blood draw and questionnaire – lasting about 10 minutes sometime in the early morning. The testing would be done in your office or at a nearby lab.

Each employee would be sent a comprehensive profile based on the lab results and questionnaire responses. This includes a 24 Blood Chemistry Profile (to help detect diseases such as diabetes, kidney, liver, bone and muscle, and also analyze cholesterol), a complete Blood Count (9 tests to help detect anemia, leukemia, bleeding abnormalities, etc.), Coronary Risk Profile and Trend Analysis, and a Medical Report that reviews and explains your test results. Areas of concern would be identified and direction provided.

Those employees currently enrolled in our medical plan would incur no cost for this testing and appraisal. The testing would go through the medical plan as a claim. Those not enrolled in our health plan could pay for the testing at the time of service and then submit to their own health plan, if appropriate. The cost of the testing is \$125 for women and men to age 50. Men over age 50 require a PSA screening so the cost increases to \$147.

We are trying to gauge employee interest in this benefit. Please take a few moments to answer the questions below:

Are you currently enrolled in ABC Company's medical plan?

- Yes
- No

If currently enrolled in the medical plan, would you take advantage of the health screening opportunity?

- Yes
- No
- N/A

If not currently enrolled in the medical plan, would you take advantage of the health screening opportunity?

- Yes
- No
- N/A

If married, would your spouse participate in the screening?

- Yes
- No
- N/A

Which of the following locations is closest to where you work?
