

Compunet Clinical Laboratories – UHC Network Clarification

There has been some confusion concerning the inclusion of Compunet Clinical Laboratories in the United HealthCare Network. McGohan Brabender received the following notification from Compunet Clinical Laboratories; please refer to the information below and share with your employees:

*CompuNet Clinical Laboratories would like to remind UnitedHealthcare (UHC) patients that we are a participating provider in United Healthcare's laboratory network. Based upon our regional contract effective January 1, 2007 with UHC, **all** laboratory services provided by CompuNet are in-network for **all** UHC patients. In addition, a listing of in-network laboratory providers that includes CompuNet Clinical Laboratories is available to UHC patients by logging onto www.myuhc.com.*

To avoid unnecessary out-of-pocket expenses, it is best to use an in-network laboratory, like CompuNet Clinical Laboratories, for your testing needs. UHC patients have complete access to CompuNet's laboratory services through their physicians and through CompuNet's Patient Service Center network. Patients can visit any one of our 27 patient service center locations throughout the Miami Valley. No appointment is necessary; however some locations offer appointment scheduling.

If you'd like more information about CompuNet's patient service center locations and hours of operation, please call (937) 296-0844 or (800) 686-2252, or visit the web at www.compunetlab.com.

If you have any questions, please contact your McGohan Brabender account representative at (937) 293-1600.
