

Good Afternoon,

We are writing you to provide some information on the steps we're taking to protect the safety and health of our employees, partners, and members during this very challenging time.

Starting this week, we advised our employees to limit non-essential business travel and to carefully consider their participation in external conferences, meetings and events with large numbers of participants, many of which have been or will be postponed or canceled by the organizers. With the more recent classification of COVID-19 as a pandemic and the declaration of a State of Emergency in the geographies in which we operate, we are taking the additional step of ceasing our participation in in-person benefits fairs, effective immediately and until further notice.

In line with this decision, we are happy to work with you on a number of safer alternatives, including partnering on virtual events, sharing materials electronically and coordinating and hosting webinars or conference calls.

The Dental Care Plus Group (DCPG) recognizes that COVID-19 is a serious global human health issue. Our leadership team is prepared and is monitoring all internal and external factors that could impact our business. And we are firmly committed to providing our clients and partners with regular and timely information about changes we are making in response to the pandemic.

If you have any questions or concerns, please contact your DCPG rep. Thank you.
