

Incident Command

The number of tests available for Ohioans continues to be limited. Several outpatient testing centers have been set up to collect specimens from patients who have a physician's order with them for a COVID-19 test to be performed.

Patients cannot simply walk into testing centers, physician offices, or a hospital and request to be tested. CDC guidelines must be followed for testing. Kettering Health Network, including Kettering Mobile Care, is not able to transport patients to testing sites.

The testing sites are:

Compunet Community Testing at the University of Dayton Arena (drive-up testing)
