POST-COVID-19 WORKPLACE PREPAREDNESS

As we begin to head back to work with a pandemic still hanging around, the CDC has provided a guidance checklist to prepare your workplace for the safety of your employees and your clients. This may not cover your specific needs, but it gives you an idea of solutions you may not have considered.

OHIO RE-OPEN DATES

As reported from Governor Mike DeWine today, the green light has been given to hair salons, spas, barber shops, for Friday May 15th. Restaurants that have outside eating have also been given the okay for Friday May 15th, but only to eat outside. Inside dining will be opened on Thursday May 21st. The task force did share the importance to understand existing rules of these establishments, i.e. someone working an open flame grill, should not wear a face mask for safety reasons. If you venture out to these businesses, you should follow the requests of the proprietor.

KENTUCKY TRAVEL ORDER

Kentucky Governor, Andy Beshear has issued an Executive Order regarding travel within the state. If you are travelling to Kentucky with intent to stay, you are

requested to still self-quarantine for 14 days, otherwise, you can travel through Kentucky to other states. Anyone who has tested positive or experiencing coronavirus symptoms, may not enter Kentucky unless under medical orders.

MAY IS MENTAL HEALTH MONTH

Some employers are finding ways to help ease the stress of the pandemic, and their employees are seeing the silver linings of working at home. Not everyone is granted the option to be working from home, so finding other avenues is important during these difficult times. Don't forget we have other wellness articles on the Employer Resources tab on our Coronavirus Resource site.
