**High Quality Means Lower Cost in Health Care**

**COST and QUALITY**  
PRESENTED BY

McGohan Brabender

Good Morning Francis Manufacturing Employees,

When we go shopping for big price items, we do some research, and we hope to find the lowest price for the best quality. It never seems to calculate that way though. Usually higher quality means higher cost, but not with health care. When providers specialize in one service, they have fewer expenses than large facilities and can charge less for their service.

Watch the video above to learn more how you can save more with your health care expenses!

Have a great day!
