

COVID-19 treatment cost share waiver end date 1/31/21

We just received confirmation from Anthem Executive Leadership that Anthem will not be extending the 1/31/2021 deadline for cost share waivers for the Treatment of COVID 19. Effective this past Monday, February 1, 2021, coverage for the treatment of COVID 19 returned to the pre-pandemic COVID 19 in-network treatment benefits. This is for all FI groups and any ASO groups that elected to extend the cost share waivers for treatment of COVID 19.

I wanted to update you directly so you can pass it along to the team as a reminder and update. Leadership has advised there are no planned communications scheduled at this time for brokers or employer groups. Anthem Account Managers will be reaching out to our mutual ASO groups with this notification where it applies.
